H) WEATHER-RELATED ALERTS

We avoid cancelling games due to adverse weather if at all possible, and choose venues that have a high resistance to adverse conditions. So do not assume games are being cancelled without firm confirmation. Also, do NOT assume that the weather conditions outside your window are the same at the gamesite fields; experience has shown that weather patterns in our area can be highly localized.

In the event of lightning, we will cease play immediately. We may also suspend play in the event of a substantial downpour. Games in the second half will likely be declared as completed. Please have your team get to shelter, and have a system for contacting each team member. Twenty minutes after a stoppage, send ONE team representative to HQ, where we will inform all affected teams of the current status of play, and when we expect to resume.

The primary online site for information during the event is the Tournament Schedule Homepage, where weather updates will appear as warranted.
